INSECTICIDE

FOR WIDE AREA MOSQUITO CONTROL USE ONLY BY FEDERAL, STATE, TRIBAL, OR LOCAL GOVERNMENT OFFICIALS RESPONSIBLE FOR PUBLIC HEALTH OR VECTOR CONTROL, OR BY PERSONS CERTIFIED IN THE APPROPRIATE CATEGORY, OR OTHERWISE AUTHORIZED BY THE STATE OR TRIBAL LEAD PESTICIDE REGULATORY AGENCY TO PERFORM ADULT MOSQUITO CONTROL APPLICATIONS, OR BY PERSONS UNDER THEIR DIRECT SUPERVISION, OR AS ALLOWED BY STATE REGULATIONS FOR PERSONS TREATING PRIVATE PROPERTY.

• Provides Quick Knockdown and Effective Control of Mosquitoes, Gnats, and Non-Biting Midges
• A FFAST™ Formulation
• May be Applied Undiluted or Diluted in Water

ACTIVE INGREDIENT:
Deltamethrin ........................................ 2.0%

OTHER INGREDIENTS .................................. 98.0%

TOTAL ................................................... 100.0%

Contains 0.17 pounds of Deltamethrin per gallon
EPA Reg. No. 432-1534

PRECAUTIONAL LANGUAGES: Si usted no lee ingles, no use este producto hasta que la etiqueta le haya sido explicada ampliamente. (TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

KEEP OUT OF REACH OF CHILDREN

CAUTION

Hazardous if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if inhaled. Toxic exposure may cause dizziness, nausea, nervousness, fever, and confusion. Avoid inhalation of dust. Inhalation of dust may cause pulmonary edema.

ENVIRONMENTAL HAZARDS
This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow drift when bees are foraging the treatment area, except when applications are made to prevent or control a threat to public and / or animal health determined by a state, tribal, local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes, or the occurrence of mosquito borne disease in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort.

SHAKE OR AGITATE THOROUGHLY BEFORE USE: Product (either diluted or undiluted) must be thoroughly agitated in application equipment.

NOTICE: This concentrate is for dilution with water only, it cannot be diluted in oil.

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning / maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

FIRST AID

If swallowed
• Call a poison control center or doctor for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by an unconscious person.

If in eyes
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for immediate treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Inhalation of dust may cause pulmonary edema.

HAZARDS TO HUMANS

This product contains an ingredient that may cause a skin reaction in a small percentage of the population. People with a history of sensitivity to this ingredient should use this product with caution. The active ingredient in this product may cause sensitization in people who are already sensitive to a related chemical. Sensitization may cause a hypersensitive reaction, such as sneezing, skin rash, or a generalized allergic reaction.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Before making the first application in a season, it is advisable to consult with the state or tribal agency with primary responsibility for pesticide regulation to determine if other regulatory requirements exist.

SHAKE OR AGITATE THOROUGHLY BEFORE USE: Product (either diluted or undiluted) must be thoroughly agitated before use. Avoid prolonged storage of excess formulation in application equipment.

NOTICE: This concentrate is for dilution with water only, it cannot be diluted in oil.
AERIAL APPLICATION

RELEASE HEIGHT

Apply using a nozzle height of no less than 50 feet above the ground or canopy. Fixed wing:

1. Apply at the rate of 0.000113 lb ai/acre or less, or apply a rate such that the volume mean diameter (Dv 0.5) is less than 60 microns (Dv 0.5 < 60 μm) and that 90% of the spray is contained in droplets smaller than 115 microns (Dv 0.9 < 115 μm). The effects of flight speed and, for non-rotary nozzles, nozzle angle on the droplet size spectrum must be considered.

2. Directions from the equipment manufacturer to calibrate nozzle flow rate(s) are properly calibrated.

3. Nozzle(s) or 50 pounds)

APPLICATION INSTRUCTIONS

This product may be applied over any and all crops or agricultural areas, (including row, tree, fruit, and a light breeze is preferable. Application during the cooler hours of the night or early morning is recommended. Apply when wind speed is equal to or greater than 1 mph.

APPLICATIONS OVER CROPS OR TO AREAS FAVORING DRIFT OVER CROPS

This product may be applied over any and all crops or agricultural areas, including row, tree, citrus, pasture, range, and other areas where agricultural enterprises take place for the control of adult mosquitoes within or adjacent to the treatment areas, or to areas where drift over cropland could occur. Use label rates and follow directions for use as directed in this label. Applications over crops or to areas where drift may occur over crops are limited to 0.014 lb ai per acre per year, with no more than one application in any three day interval. Maximum number of applications per year depends on the application rate used: 10 applications at 0.000134 lb ai, 15 applications at 0.00089 lb ai, or 30 applications at 0.00024 lb ai. More frequent applications and more than 0.14 lb ai per acre per year may be used to prevent or control a threat to public health determined by a state, tribal or local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes or the occurrence of mosquito-borne disease in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort.

DROPLET SIZE DETERMINATION FOR AERIAL APPLICATION EQUIPMENT

Spray equipment must be adjusted so that 50% of the spray (the volume mean diameter, Dv 0.5) is less than 60 microns (Dv 0.5 < 60 μm) and that 90% of the spray is contained in droplets smaller than 115 microns (Dv 0.9 < 115 μm). The effects of flight speed and, for rotary nozzles, nozzle angle on the droplet size spectrum must be considered. Directions from the equipment manufacturer or vendor, pesticide registrant or a test facility using a wind tunnel and laser-based measurement instrument must be used to adjust equipment to produce acceptable droplet size spectra.

Application equipment must be tested at least annually to confirm that pressure at the nozzle and nozzle flow rates are properly calibrated.

STORAGE AND DISPOSAL

Do not combine Imperium™ Insecticide with other pesticides or with any other chemicals except as directed in this label.

PESTICIDE STORAGE: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, silt or other, etc. Dispose of with chemical waste.

PESTICIDE DISPOSAL: Disposal resulting from the use of this product may be disposed on site or at an approved waste disposal facility.

CONTAINER HANDLING:

Do not re-refill containers small enough to shake (i.e., with capacities equal to or less than 5 gallons).

Non-refillable container. Do not reuse or re-fill this container. Offer for recycling, if available. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Triple rinse as follows:

- Empty the remaining contents into application equipment or a mix tank.
- Fill the container 1/4 full with water. Replace and tighten closures.
- Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Pour the rinseate into application equipment or a mix tank or store rinsate for later use or disposal.
- Repeat this procedure two more times. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

Refillable container:

- Refill this container with pesticide only. Do not reuse this container for any other purpose.
- Utilize the container before final disposal is the responsibility of the person disposing of the container. Keep the container clean at the time of disposal. Do not offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unused product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability:

CONDITIONS: The directions for use of this product are believed to be adequate and must be fol-

owed. The fact that a product is able to eliminate all risks associated with the use of the product does not preclude the occurrence of accidents. Responsibility for proper application and use is assumed by the user or buyer.
